Mr. Jose Luis Jauregui
Echebatar

Via email jljauregui@echebatar.com

Dear Mr. Jauregui,

As part of our Strategic Plan, ISSF is committed to providing support and tools to tuna FIPs and to MSC-certified fisheries with conditions so they may close those conditions. As such, ISSF welcomes the opportunity to be actively engaged in your improvement process and provide assistance to encourage alignment with MSC best practices and support sustainable management of tunas in the IOTC.

As you are aware, ISSF is also engaged in reviewing and supporting the SIOTI and OPAGAC FIPs. We also look forward to this opportunity for synergy and reducing duplication by assisting all of these projects in harmonizing key recommended best practices for tuna fisheries operating with Fish Aggregating Devices (FADs).

Best regards,

A handwritten signature in black ink, which appears to read 'Susan S. Jackson', is positioned below the text 'Best regards,'.
